ALWAYS THE BEST OF EVERYTHING FOR THE LEAST MONEY.

We Close Every Evening at 5 o'Clock, Saturdays Excepted.

Our Remnant Day—

No better time could be selected for your buying than now and there are two reasons for this. In the first place it's going to be the last call on all summer remnants. In the second place, new fall arrivals will make their initial bows, so between the two you may well look forward to some very interest-

A Few Facts About These Reductions Which Are Worth Coming For:

50 fine blue polka dot pique skirts made with double ruffle flounce, assorted lengths and waist bands, reduced from 69°C 23 all linen skirts, some with strap seams, made with full flare flounce, these sold for \$2.00 and \$2.25, they are grand bargains to 980 5 neat black and white polka-dot shirt walst suits, flounce skirt with braid trimming, reduced from \$1.39

There are in all about 50 white pique skirts in the house, both plain and embroidery trimmed, no matter what the former prices where you can \$1.25 take your choice for.

2 women's linen ulsters, made in the very latest fashion, this season's goods, the very thing for traveling, reduced from \$1.00. 8 fine all-wool golf capes, extra full cut and sweep, they are made of extra quality double-faced cloth—they were justly priced when we sold them at \$5.50 and \$10.38—you can buy them \$4.98

1 black mackintosh, silk-lined throughout, which sold for \$10, cut down to. These remnant values you can find in our Suit Department-second floo Smith Building.

Odd Ribbon Lengths and Broken Assortments of Women's Neckwear!

Short lengths of ribbons, from 1 to 21-2 yards, in satin and gros grain—velvet with satin back, in all colors, 1-4 and 1-2 inch wide, 2c. to 5c. value, closing out at per yd. 3 and 4-inch wide Ribbon in plain colors and fancy effects, suitable for neck and waists, value up to 25c. 5C per yd., for. per yd., for.

Balance of our wide Ribbon, in satin and gros grain, satin taffeta, moire effects, 41.2 to 61.2 inches wide, showing value up to ex per 190

AFFAIRS OF THE DISTRICT.

415-417 7th St.

The Auditor's Opinion on Street Crossing Policemen's Pensions.

vators in Willard's Hotel - Arrangements for the Celebration of District Day at the Buffalo Fair. J. T. Petty, the District Auditor, yester-

day forwarded to the Commissioners his report upon the communication of Leo Simmons relative to the granting of nmons relative to the granting of pensions to street crossing policemen. Mr. Petty takes the ground that under existing laws the proposition cannot be favorably considered.

"In connection with the question," he says, "of allowing leaves of absence with pay to special policemen stationed at street rallway crossings and intersections, referred to me under date of the list inst., I have the honor to submit the following

"The law authorizing these officers, anproved June 24, 1898, provides as follows: 'Sec. 2. That the Commissioners of the District of Columbia are hereby author-ized and required to station special policemen at such street railway crossings and intersections in the city of Washington as the Commissioners may deem necessary, the expense of such service to be paid pro rata by the respective com-panies.

"The foregoing section was amended February 25, 1991, by adding the following words: 'The special policemen aforesaid shall possess all the powers and authority now conferred by law upon privates in the Metropolitan police force, subject to such regulations as the Commissioners of the District of Columbia may from time

to time prescribe.'
"These provisions comprise the law gov erning this class of policemen, and as neither of them in terms authorizes leave of absence with pay, and the Government contributes nothing to the maintenance of the service, there is neither legal nor equitable sanction for action looking to he granting of leave as aforesaid by the

equitable sanction for action looking to the granting of leave as aforesaid by the Commissioners.

"No one realizes more fully than myself the desirability of giving to these officers opportunities for rest and relaxation from the exac ions of their exceedingly important duties, but as the entire cost of their support is borne by the railway companies, they sustain, to a certain extent, the relations of employes to these corporations, and the management of the latter rather than the Commissioners, in the absence of legislation prescribing the course to be pursued, should have the right to determine the matter in controversy. These companies, however, exist by virtue of charters received from Congress, and that body can, as a condition precedent to granting or continuing in force a franchise of this character, require the allowance of leave privileges to policemen stationed at street railway crossings, but the Commissioners are, in my opinion, without the slightest authority to make or enforce such a regulation.

"The status of these officers in respect of their right to participate in the benefits of the policemen's fund can scarcely be considered a debatable question. That fund was created by law for members of the Metropolitan Police alone, and is based primarily upon a retent of 11 per month from the salary annually appropriated for each member of the force, the law requiring that the amount so retained shall be desposited with the Treasurer of the United States and accounted for as other expenditures of the District of Columbia. The compensation of special officers not being provided for in, or derived from, appropriations, nor authorized by law to be deposited with the Treasurer of the United States, the accounting officers of the Treasurer of the United States, the accounting officers of the Treasurer of the United States, the accounting officers of the Treasurer of the United States and accounted for as other expenditures of the pension act.

"In the light of the law and the facts it seems clear that no

Great interest is being manifested in the arrangements for District Day at Buffalo. The committee in charge of that celebra tion predicts that Washington will be represented at Buffalo by large crowds. nmissioners Macfarland and Ross and the members of the committee of ar-rangements will leave for the exposition

Commissioners Macfarland and Ross and the members of the committee of arrangements will leave for the exposition Saturday, and Engineer Commissioner Beach, who is now in Chicago, will arrive there Monday.

Reports received from Buffalo indicate that the day is being looked forward to there as a banner occasion. The presence of the full Marine Band, with the prospect of several concerts during the day and evening of September 3, will be a crowd-drawing feature.

The celebration of District Day at the exposition has been given most careful thought by the Commissioners and the committee appointed by them. The request for the celebration came to the Commissioners from President Milburn and Director General Buchanan, of the Pan-American Exposition, in carrying out their programme of setting apart one day for each State. The date, September 3, was selected by the Commissioners on account of its proximity to Labor Day.

To make the affair as representative of the District as possible, the Commissioners appointed a committee of arrangements on which were included former Commissioners John W. Douglass, chairman; L. G. Hine, M. M. Parker, George Truesdell, and John B. Wight. Matthew G. Emery, the only living ex-mayor of Washington, was also included, as were John Joy Edson, President of the Business Men's Association; Theodore W. Noves, Walter S. Hutchins, and Berlah Wilkias. As Mr. Wilkins was to be in Europe, John F. Wilkins, his son, was substituted.

Two honorary vice presidents were appointed at the request of the exposition managers, and on motion of Commissioner Remay for the Hutchins, and Berlah Wilkias. As Mr. Wilkins was to be in Europe, John F. Wilkins, his son, was substituted.

The programme of the day will include a reception to the District Commissioners in the morning in the United States Government Bullding. The Marine Band will render a concert as a part of the morning in the United States Government Bullding. The Marine Band will render a concert as a part of the morning in the United States.

are so slight that Mr. Hermans 288s that the work be allowed to stand by the sanction of the Commissioners.

Mr. Hermans submits a long statement to the effect that the points insisted upon by the Building Department are peculiar and different from those demanded in other cities. He also says that the inspector for the District expressed himself as satisfied personally with the construction from a mechanical standpoint, but that the rules governing him as an inspector did not give him any discretion.

In reply to the communication of Mr. Hermans A. M. Lawson, the inspector, states that he on May 14 last sent to the George A. Fuller Company a formal notice of the points in which the work referred to was defective, and that no attention was paid to the matter until June 15, when Bernard Green, the supervising engineer of the building, called at the office of the inspector of Buildings, and the details of the work were gone over on the ground between the inspector, Mr. Green, and Mr. Hermans. The inspector states that the latter on that date appealed to him to allow the work to stand, as the time for the completion of the contract was so short that he would not be able to make the necessary changes and complete the work within the limit.

Mr. Lawson states that he did not say to Mr. Hermans that the work was of good construction, but that he positively insisted on having the work done that would ensure the greatest possible safety. "When It is remembered," continues Mr. Marriage licenses were Issued yesterday to Daniel Coates and Molinda King, Walter R. Branham and Mary H. Anderson, Henry W. Dowson, District of Columbia, and M. Yancey Patterson, Charlottesville, Va.: Frederick Strather and Louise Graham, Jerenitah Small and Martha E. Cox, Allen Griffin and Hannah Montgomery, Alfred Ritter and Effle Goodwin, both of Cumber-land Md.

May Drink Beer and Sing.

William B. Williams and hts wife, Mary, colored people, were in the Police Court yesterday arged with disorderly conduct. A couple of

insisted on having the work done that would ensure the greatest possible safety. "When it is remembered," continues Mr. Lawson, "that these elevators are to run at a speed of 450 feet per minute, and that a large number of people will patronize this hotel and consequently travel in these elevators, it is important that every precaution should be taken to secure these persons against all possible danger of accident." Alice Tillman, colored, who is one of the Alley, was a prisoner in the Police Court yester day, charged with being a vagrant. It was sale John B. Brady, the Inspector of Buildings, in forwarding this report to the Commissioners approves the same and recommends that wherein the construction is not in compliance with the regulations notice should be served upon the responsible parties that it must be altered so as to comply in every detail with the regulations before a certificate can be issued by his office. The Engineer Commissioner has approved the recommendation and has forwarded the papers in the case to his associates. that the woman had been out of the workhouse about ten days; that she had been drank almost continually since, and that Wednesday night she was found lying in the alloy in an intoxicated condition. She was sent to the workhouse for sixty days in default of a fine of \$20.

To Pay for the Window.
